

Gibbon Maze

Try your hand at moving from branch to branch and navigating a forest like a white-handed gibbon!

What you need:

- Streamers or string
- Tape
- A hallway

Directions: Tape up a maze using the streamers or string to create a forest that your child can navigate. Let your gibbons climb and play. Make it a timed challenge to see who can move through the quickest without touching a streamer. See if you can do it blindfolded or standing on one foot! Move and play pretend together.
