

Catapalooza Wild Cat Matching Game Instructions

Print the following pages two-sided or back to back, with large cat images on one side and the standard logo back on the other side. Cardstock works well so your game will be more sturdy, but regular paper is fine too.

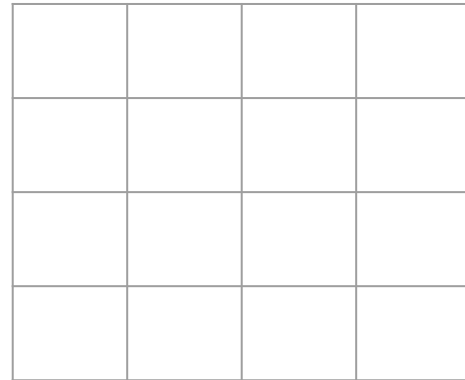

Cut each card out along the lines.

Mix the cards up and lay them all out in a grid facedown.

Take turns with a partner turning over two cards at a time.

If the two cards match, remove them from the grid.

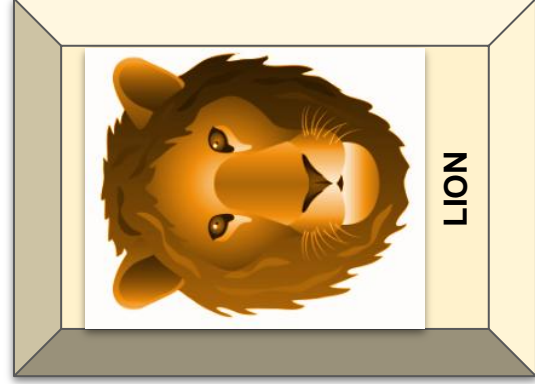

If they do not match, put them back where they were, and try again.

The key is to remember where each cat is in the grid to help you make matches. The person with the most matches at the end, wins!
